ARTICLE 001.000 TITLE AND INTENT

SECTION 001.001 TITLE AND AUTHORITY

The Taney County Development Guidance Code for Taney County, Missouri was adopted on November 13, 1984 by order of the Taney County Commission pursuant to the authority granted by the Legislature of the State of Missouri in Sections 64.800 through 64.895 of the Revised Statutes of Missouri. The Taney County Development Guidance Code created two districts, the Western District and the Eastern District. These Codes were designed to manage the growth and development of Taney County by segregating incompatible land uses with use permits and performance standards based upon absolute and relative policies. The Taney County Development Guidance Code, pursuant to the authority granted by Section 64.875 of the Revised Statutes of Missouri, is henceforth amended and shall be known as the "Zoning Regulations for Taney County, Missouri" and shall be cited as such. The map portion of these Zoning Regulations may also be cited separately as the Taney County Zoning Map.

SECTION 001.010 APPLICABILITY AND JURISDICTION

The Zoning Regulations for Taney County, Missouri shall apply to all development, public and private, within unincorporated Taney County. All structures and land uses constructed or commenced hereafter and all enlargements of, additions to, changes in and relocations of existing structures and uses occurring hereafter shall be subject to these Zoning Regulations.

SECTION 001.020 COMPLIANCE REQUIRED

It shall be unlawful to conduct any development or construct any structure until (1) all applicable development review and approval processes have been followed; (2) all applicable approvals have been obtained; and (3) all required permits or authorizations to precede have been issued. Violations will be processed in accordance with Article 046.000 of these Zoning Regulations.

SECTION 001.030 MINIMUM REQUIREMENTS

The standards of the Zoning Regulations for Taney County, Missouri are minimum requirements. The issuance of any permit, certificate or approval in accordance with the standards and requirements of these Zoning Regulations shall not relieve the recipient of the responsibility for complying with all other applicable requirements of any other county, state or federal agency.

SECTION 001.040 PURPOSE AND LEGISLATIVE INTENT

- A. These Zoning Regulations are adopted for the following purposes:
 - 1. To preserve the health, safety and general welfare;

2. To secure safety from fire, panic and other dangers;
3. To prevent the overcrowding of land;
4. To facilitate the adequate provision of adequate facilities for transportation, water, sewage, schools, parks and other public requirements;
5. To promote a more homogeneous relationship of land use within unincorporated Taney County;
6. To protect property values;
7. To regulate the use of the land and to promote the orderly development of the County in accordance with the Master Plan for Taney County as adopted by the Planning Commission; and
8. To effectuate the use of other accepted purposes of zoning.

SECTION 001.050 CONFLICTING PROVISIONS

A. Conflict with State or Federal Regulations

If the provisions of these Zoning Regulations are inconsistent with those of the state or federal government, the more restrictive provision shall control, to the extent permitted by law.

B. Conflict with Other County Regulations

If the provisions of these Zoning Regulations are inconsistent with one another, or if they conflict with provisions found in other adopted ordinances or regulations of the county, the more restrictive provision shall control.

C. Conflict with Private Agreements and Covenants

These Zoning Regulations are not intended to abrogate, annul, or otherwise interfere with any easement, covenant, or other private agreement or legal relationship. Taney County is responsible for enforcing these Zoning Regulations; however, the County does not enforce private agreements.

SECTION 001.060 DEVELOPMENT UNDER PRIOR REGULATIONS

A. Violations Continue

Any violation of the previous Taney County Development Guidance Code shall continue to be a violation under these Zoning Regulations and shall be subject to penalties and enforcement under Article 046.000, unless the

use, development, construction or other activity is consistent with the express terms of these Zoning Regulations, in which case enforcement action shall cease, except to the extent of collecting penalties for violations that occurred before _____ (*Effective Date*).

B. Completion of Development

1. Applications Submitted Before _____ (*Effective Date*)

Any building, development or sign for which a complete application was submitted to the county before _____ (*Effective Date*), at the applicant's option, may be reviewed wholly under the terms of the Taney County Development Guidance Code. If approved, such projects may be carried out in accordance with the development standards in effect at the time of application. Any re-application for an expired permit shall meet the standards in effect at the time of re-application.

2. Permits Issued Before _____ (*Effective Date*)

Any building, development or sign for which a permit was in effect prior to _____ (*Effective Date*) may be completed in conformance with the issued permit and other applicable permits and conditions, even if such building, development or sign does not fully comply with provisions of these Zoning Regulations. If construction is not commenced or completed in accordance with the applicable permit terms, the County Commission may, for good cause shown, grant not more than one (1) extension of up to six (6) months for such construction. If the building is not completed in a timely manner, within the time allowed under the original permit or any extension granted, then the building, development or sign may be constructed, completed or occupied only in strict compliance with the requirements of these Zoning Regulations.

Section 001.070 Severability

- A.** If any Court of competent jurisdiction rules any provision of these Zoning Regulations invalid, that ruling shall not affect any provision not specifically included in the judgment.
- B.** If any Court of competent jurisdiction invalidates the application of any provision of these Zoning Regulations to a particular property, building, or other structure, or use, that ruling shall not affect the application of the Zoning Regulations to any property, building, other structure, or use not specifically included in the judgment.

Streets and roads are classified by function according to relative importance and design standards are related to functional classification. These classifications are as follows:

1. Primary arterials or expressways are facilities devoted primarily to traffic movement, performing little or no land service function and should have some access control.
 - a. Freeways have full access control and separation of all conflicting traffic movements, such as the interstate highway system or other freeways connecting large population centers carrying heavy volumes of traffic for long distances.
 - b. Parkway are usually located within a park or park-like green area, and are restricted to non-commercial vehicles.
 - c. Other expressways are generally divided highways with some grade-separated interchanges, some cross streets not carried across the median, and the other intersections controlled by signals or stop signs, such as primary state highway.

2. Secondary arterials are facilities that bring traffic to and from primary arterials and accommodate major movements and traffic not served by primary arterials. Designed mainly for through traffic, secondary arterials may also perform some land service functions, particularly in low density agricultural areas. Typical secondary arterials are secondary state highways and primary county roads.
3. Collectors are streets that serve internal traffic movements within an area, such as a subdivision, and connect the area with the arterial system such as secondary county highways (farm roads). They do not handle long through trips, but connect small communities and developed areas and also provide a land service function. Direct frontage of single-family lots on collectors is normally discouraged.
4. Local or land access streets have the sole function of providing access to immediately adjacent land, whether industrial, commercial or residential.
5. Minor local or land access streets are streets whose length is limited by design as a loop or cul-de-sac that will not be extended into adjacent development, normally serving not more than fifteen (15) dwelling units on a cul-de-sac or thirty (30) dwelling units on a loop.

- C.** It is hereby intended to permit Planned Unit Developments upon application and upon approval of site and use plans.
 - 1.** Suitability of such tracts for a Planned Unit Development designation shall be determined by and shall be made according to the provisions of the Comprehensive Development Plan, and designed to;

 - 2.** With a reasonable consideration being given to, among other things, the character of the Zoning District and its peculiar suitability for particular uses, and with a view to conserving the land throughout the County.
- D.** In a Planned Unit Development, the regulations that are imposed are intended to accomplish the same purposes as do zoning regulations and other applicable regulations in zoning districts that are developed on a lot-by-lot basis, rather than on a unified basis.

- E.** Nothing in this Section shall be construed to prevent an applicant from submitting, at his or her option, a subdivision plat or site plan for simultaneous review with the Planned Unit Development Plans.

B. The PUD Concept Plan shall be prepared in compliance with the directives stated herein.

- 1.** The owners of a tract of land located in any Zoning District containing no less than five (5) acres may apply for a Planned Unit Development (PUD) and submit for the Planning Commission's review, a Concept Plan for the use and development of such tract of land for a Planned Unit Development project.
- 2.** In accepting such a plan for review, the Planning Commission must be satisfied that the proponents of the Planned Unit Development (PUD) project intend to complete it within a reasonable time as determined by the Planning Commission.
- 3.** Such plan shall be prepared by a registered engineer or architect and shall contain, at a minimum, the following information:
 - a.** A legal description of the proposed PUD project with total number of acres in the project and the number of acres allocated for each respective land use for the proposed PUD.

1. A general land use plan with a description of the type, location, and nature of each land use allocation within the Zoning District.
