Response to the above listed RFP resulted in a total of nine responses from four different Vendors. Per the instructions within the RFP Taney County Road and Bridge Coordinator Randy Haes assigned two of his Team Leaders with the most experience with Bucket Trucks as well as himself – with assistance from Purchasing – to form an Employee Evaluation Panel. Said Panel met to complete a very thorough review / evaluation of all the information submitted by each Vendor – on each unit. A mathematical “factor” to determine exact scores for two parts of the four scoring criteria - submitted prices as well as submitted mileage was used and is listed above.

The completed Evaluation Summary Sheet above reflects the fact that one Vendor, Utility Fleet Sales, submitted four units with two scoring in the top three. **Utility Fleet Sales** scored the highest with a **2000 GMC C7500** having the lowest Bid price as well as achieving an overall score of **87%** out of a possible 100%.

The Panel recommended sending an employee from Road & Bridge to Texas to inspect said unit in person and if it meets the needs of Taney County - purchase accordingly. The Taney County Commission made a motion to award – contingent on a satisfactory in person inspection, to **Utility Fleet Sales on the 2000 GMC for \$37,480.08**, said motion passed unanimously.

Thank you.

Ron Erickson,
Director of Purchasing
Taney County Missouri
