Why Should You Recycle?

Recycling prevents resource destruction. By recycling you send discarded items back to manufacturers to make new products. Americans already produce 254 million tons of trash yearly and only about 34.3 % of that is recycled. The percentage of air and water pollution is decreased when you recycle and we also save energy and money. Overall you will significantly reduce the amount of waste that goes into landfills and incinerators!

How to Create Less Waste

1. Avoid foods in plastic
2. Bring your own shopping bags
3. Avoid single use items/ foods
4. Get reusable utensils, water bottles, straws & various food containers
5. Compost your food waste
6. Buy in bulk

Accepted Items:

- **Aluminum:** Cans Only
- **Cardboard:** Flattened boxes, No wax coated boxes
- **Glass:** Clear & Colored with no lids, No Pyrex or Ceramic
- **Paper:** All Paper, Magazines, Newspaper and Books. Please bag shredded paper separate.
- **Tin:** All tin cans rinsed
- **Plastic:** Bottles & Jugs - #1 & #2 Only
